

Aquabot

SUPREME

SUPREME Power, Performance & Savings!

Enjoy Complete Pool Cleaning & SUPREME Savings at the Touch of a Button

- Saves you as much as 50% on total pool expenses (chemicals, water, energy)
- Scrubbing brushes loosen stubborn debris from floor, walls, waterline, and most stairs
- Customizable vacuum ports provide clog free removal of the largest debris, finest dirt and best corner access
- Largest capacity reusable [internal] filter = more debris with less cleaning
- Industry's healthiest filtration
- Most powerful water circulation
- NeverStuck™ wheels roll over obstacles that other cleaners get hung up on
- Largest national robotic support network in the industry
- Made with Quality in the U.S.A.!

It's a Cleaner, It's a Filter, It's Aquabot SUPREME! The SUPREME Cleaning and Money Saving Robot.

As the world's leading engineering experts on robotic autonomous underwater vacuums it was only a matter of time until an efficiently priced, compact powerhouse loaded with next generation features and capabilities could be designed and branded with the Aquabot logo. Aquabot Supreme is actually a mobile filtration system that scrubs and vacuums floor, walls, waterline and even most stairs as it microfilters and circulates the pool water reducing

the run time of your pool filter/pump by as much as 50%. The result being that Aquabot SUPREME saves you time and money as it's intelligent cleaning coverage provides reliable, effective operation as it pays for itself. Aquabot SUPREME simply outperforms every other cleaner in its class as it cleans better, offers the most capable features, and works smarter to save you the most amount of money.

AQUAPRODUCTS

THE WORLD'S LEADER IN ROBOTIC POOL CLEANING SOLUTIONS

You Deserve SUPREME Features, Performance & Savings!

Aquabot SUPREME scrubs and vacuums out debris off the floor, walls and even grime along the waterline. Internally filtering out sand, silt, pollen and algae Aquabot SUPREME operates independent of your pool's filter or pump and works without costly-to-run booster pumps. Microfiltered water is immediately thrust out to circulate the water for the cleanest and healthiest swimming and easiest pool maintenance. At the simple touch of a button Aquabot SUPREME does all the work for you and without the hassle of hoses or manually brushing. Take your life back and let Aquabot SUPREME clean and save you money

Saves: Saves you up to 80% of water, 50% of energy and 30% of chemicals

Independent: Self-Contained – simply plug in

Fast: Intelligent guidance, complete pool cleaning in as little as 2 hours

Timely: Can be externally set to automatically operate per your schedule

Scrubs: Dual foot-long brushes rotate to scrub your pool's entire surface

Vacuums: Most powerful vacuum and circulation in its class

Filters: Internal, reusable 34 quart maximum capacity microfilter removes unhealthy impurities down to 2 microns without clogging your pool's filter

Adjustable: Customizable debris port widths and depths enable removal of your particular debris type from pollen to pine needles to palm leaves

Mobile: NeverStuck™ wheels roll over raised areas that beach other cleaners

Protective: G-Tooth™ Tracks protect pool surface and cleaner from contact

Economical: Moderately priced and loaded with next generation features

Experienced: Engineered by the #1 manufacturer of robotic pool vacuums

Safe: Completely certified to UL Standards for Safety and Reliability

Supportive: Backed by the largest robotic cleaner service center network

American: Unlike virtually every other cleaner, Aquabots are made with the on-site quality and pride found only in the USA!

An Aquabot is not just a cleaner – it is the greatest amount of research and engineering development experienced by more than 1 million pools worldwide ranging from homeowners just like yourself to the most prestigious commercial swimming facilities from the Olympic games to Disney World to military bases, resorts, water parks, health clubs, cities and beyond.

SPECIFICATIONS	
Designed for Pools	Up to 50' length of any surface or configuration
Cleaning Time	2-3 Hours
Operating Time	Can operate to any time setting desired by connecting to any standard auto-timer
Filtration	Self-contained, reusable 23-quart maximum capacity; Large leaves to fine particles – down to 2 microns
Flow Rate	5,000 gallons per hour
Pump Motor	Brushless, individually sealed, water-cooled and with heat-dissipating and lubricating oil for longer motor life
Drive Motor	Individually sealed, oil-free, water-cooled
Cable	61' - buoyant thermoplastic rubber - No chlorine corroding Kevlar®
Operating Cost	Approximately 5¢ per cleaning cycle
Wattage:	180 Watts
Voltage	115 V / 60Hz, 24V at cleaner
Warranty	1 Year
Safety & Reliability	Cleaner, Cord and Power Supply are ETL listed to UL Standards - the highest safety and reliability certification in the industry
Unit Weight	18.9 lbs.
Shipping Weight	39.0 lbs.
