XTREME

Clean & Green to the XTREME!

POOL CLEANING AND SAVINGS AT THE TOUCH OF A BUTTON

- Maintenance cost savings of up to 50% (chemicals, water, energy)
- Scrubbing brush system loosens stubborn debris
- Offset vacuum ports for clog free operation and better corner access
- Large capacity reusable, internal filter – more debris with less cleaning
- Industry's healthiest filtration
- Most powerful water circulation
- Complete floor and wall basin cleaning at the touch of a button
- Largest national robotic support network in the industry
- Made with quality in the U.S.A.!

Just Plug it in and Turn it on

No Hoses, Booster Pumps or Pool Filter Connections Needed.

Ever look at your bathtub and notice that not only has the floor become dirty, but there is also a ring around the lower portion of the wall? This was our inspiration to provide cleaning of the entire floor and lower wall basin area. Rather than using a little piece of foam whipping around at random to try and brush the pool's surface as other cleaners do, Aquabot Xtreme features two foot-long motor powered rotating dense rubber brushes to truly scrub your pool's surface clean- so you don't have to!

What little free time you may have is better spent on more important things like being with friends and family than hassling with cleaning your pool. Aquabot Xtreme does the work for you, including filtering and circulating your pool water - saving you chemicals, lowering heating bills and extending the life of your pool filter. Aquabot Xtreme eliminates costly-to-run booster pumps altogether and can cut your pool's main filter run time in half - saving you \$1,000's in energy every year!

AQUA PRODUCTS

THE WORLD'S LEADER IN ROBOTIC POOL CLEANING SOLUTIONS

XTREME

XTREME Pool Cleaning - Without Hoses, Booster Pumps or the Pool's Filter System.

With the Aquabot XTREME you can clean your entire pool in as little as 2 hours, reach areas other cleaners miss and cut your total pool expenses by as much as **50%**, while protecting your family and friends with the healthiest swimming environment – automatically.

Forget the days when hoses were either stuck in your pool or dragged out for each cleaning, or when you actually hoped that strangers would show up to your home just so that your pool would be cleaned. Today, Aquabot XTREME is the state-of-the-art, cost-effective and performance-proven way to clean your pool in a fraction of the time of other cleaners. There are no hoses or vacuum poles to mess with, no strangers on your property, and it no longer matters if wind blew dirt in the pool or it just rained after the pool was cleaned, because with Aquabot XTREME you will enjoy effective cleaning and filtration and XTREME savings at the simple touch of a button. Here's why:

Saves you a fortune in total pool expenses. In fact, in a matter of months Aquabot XTREME savings can pay for your total annual pool operation.

- > Saves you as much as 80% of water loss
- > Saves you up to 70% on energy bills
- > Save you as much as 50% on electric bills
- > Saves the environment from harmful backwashing

Self-contained with internal pump, drive and filtration system.

Systematic straight forwards and reverse arc-turn movements controlled by internal microprocessor and patented directional turning floatation enables Aquabot XTREME to clean any pool surface type or configuration without wasteful overlapping.

Efficient by design, Aquabot XTREME cleans pools in a fraction of time and reduces more than 50% of the wear and tear other cleaners incur. This translates into less operating hours, which saves you money and time, while providing you with greater reliability and lower maintenance issues or expenses.

Effective design based on more than 30 years of underwater robotic vacuum experience, Aquabot XTREME's rotating scrubbing brushes loosen build-up and break down debris. To avoid clogging and to access dirt along pool edges, dirt and debris are vacuumed in through two off-center positioned underside vacuum ports .

Microfilters out dirt and debris, such as leaves, pine needles, acorns, burs, sand, silt, pollen and even algae and bacteria 10 times smaller than what most main pool filtration systems can remove - to ensure the healthiest swimming water for you, your family and friends.

Join the **revolution** and enjoy XTREME cleaning and savings. Buy with confidence knowing that every Aquabot is individually handcrafted and quality tested with pride in the USA by the largest, oldest and world's leading underwater robotics cleaning systems company.

SPECIFICATIONS

Designed for Pools	Up to 40' long / Any surface or configuration
Cleaning Time	2 - 3 Hours
Operating Time	Can operate to any time setting desired by connecting to standard auto-timer
Filtration	Self-contained, reusable 23-quart maximum capacity; Large leaves to fine particles – down to 2 microns
Flow Rate	4,500 gallons per hour
Pump Motor	Brushless, individually sealed, water-cooled and with heat-dissipating and lubricating oil for longer motor life
Drive Motor	Individually sealed, oil-free, water-cooled
Cable	51' - buoyant thermoplastic rubber - No chlorine corroding Kevlar®
Operating Cost	Approximately 5¢ per cleaning cycle
Wattage:	180 Watts
Voltage	115 V / 60Hz, 24V at cleaner
Warranty	1 Year
Safety & Reliability	Cleaner, cord and power supply are ETL listed to UL Standards - the highest safety and reliability certification in the industry
Unit Weight	16.9 lbs.
Shipping Weight	37.0 lbs.

For more information or product comparisons call: **800-221-1750** or visit: AquaProducts.com

G-Tooth™ Drive Track protects from abrasion and provides best climbing traction.

Rotating scrubbing brushes loosen build-up and break down debris.

A filtration rate of 4,500 GPH ensures the removal of everything from algae and silt to palm leaves and pebbles.
